REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is a waterborne copolymer dispersion comprising alkenyl functional dendritic polymer formed from a dendritic core polymer specified in the claims and having at least one alkenyl functional compound bonded to said core polymer, and wherein alkenyl functional dendritic polymer is copolymerized to a polymer backbone of at least one homo or copolymer obtainable by polymerization in an aqueous medium of at least one polymerisable allyl, vinyl, maleic or diene monomer.

- 2. While reference of record to Duff et al Patent 5,332,640 discloses a core dendrimer having three or four arms having terminal functional groups, Duff does not disclose that a dendrimer has at least one alkenyl functional group such that said alkenyl functional dendritic polymer is copolymerized to a polymer backbone via alkenyl functionality by the emulsion polymerization technique. Other references of record to Grandhee Patent 6,683,145 and Southwick et al Patent 5,292,795 also do not disclose a dendrimer having at least one alkenyl functional compound on said dendrimer core such that the resulting dendritic polymer is copolymerized to a polymer backbone vis alkenyl functionality using emulsion polymerization process. These references do not disclose the specified dendritic polymer in the present claims.
- 3. Claims 1-29 are deemed contain allowable subject matter.
- 4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Page 3

Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Olga Asinovsky whose telephone number is 571-272-

1066. The examiner can normally be reached on 9:00 to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a

USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
